### **Honors Credit Requirements**

In general, contracted Honors classes involve academic work above and beyond the common requirements of the class. Briefly describe the additional requirements that you will fulfill and that the instructor will evaluate for you to receive recognition as an honors course for the CSE Honors Program. Attach any relevant documentation.

## Honors Credit Evaluation

By the end of the semester or within a reasonable amount of time after the conclusion of the course, the student must have fulfilled all the requirements enumerated above. The student must also have their work evaluated and the instructor must indicate whether or not the student's results fulfill the requirements above. If the instructor deems that the requirements above have not been fulfilled, they are not obligated to sign this document. It is the student's responsibility to obtain, complete, and file this contract with the CSE Honors Program Director.

As the instructor for this course, I attest that the student has fulfilled all requirements enumerated in this contract to my satisfaction and that their work constitutes academic work above and beyond the regular requirements for the course.
