## Electrical Engineering Dual Matriculation

Add the Following Courses:	hrs
Two of CHEM 109, PHYS 213, LIFE 120/121	4
PHYS 222, ELEC 306, 307, 317, 222 or CSCE 236	8
Choice ELEC 494/495 or CSCE 488/489	0
EE Option (formula) 12 hrs from list	6
UPPER case: 3, EiThEr case: 3, Other Option: 3, Any EE: 3	

### Electrical Engineering Major Options

CSP/csp	-	Communications & Signal Processing
EFO/efo	-	Electromagnetic Fields & Optics
ECE/ece	-	Electronics & Computer Engineering
EPS/eps	-	Energy & Power Systems
MD/md	-	Materials & Devices
BIO/bio	-	Bioengineering

## Computer Science Dual Matriculation?

<b>Add the Following Courses:</b>	<b>hrs</b>
CSCE 322 as a Technical Elective	0
CSCE 423 or 428 as a Technical Elective	0
second PHYS lab or CHEM 110	1-4
CDR A (ACE 1) or ENGL 150 & 151	3
CDR C (Hum/Hist)	3
CDR D (Soc Sci)	3
	<hr/>
	10+

But  $120 + 30 = 150$  hrs needed for Dual Matriculation  
means  $150 - 126 - 10+ =$  up to 14 more open hours.  
Suggest also add Physics minor and/or Math major.

Dual Matriculation forms are available at the Advising Office, W204 Nebraska Hall.

## Engineering Mathematics Minor

The minor includes MATH 106, 107, 208, 221 plus 12 advanced hours. Computer Engineering already includes MATH 314 and MATH 340 (cross-listed as CSCE 340). Simply add two more math courses.

Adding a minor can be done at the Advising Office, W204 Nebraska Hall.

## Recent Changes

**Fall 2009 through Fall 2010:** ACE General Studies formula was instituted, replacing the old ES/IS. Technical Elective hours totaled just 9. Required courses included CSCE 430, ELEC 307, 361, and 475, which will become electives in Fall 2011. CSCE 236 was not yet created.

**Fall 2011:** Required courses were reduced, CSCE 236 added, and Technical Elective hours increased to 15. Technical Elective hours were not restricted by type such as ELEC, Raikes Design Studio, etc., but the choices from ELEC were limited to just eight that were considered most relevant, and a few theory oriented CSCE courses were also not included.

**Fall 2012 through present:** Technical Elective hours become constrained by type, but choices are opened up to virtually any non-required upper-level courses in ELEC and CSCE.

By default students use the bulletin year under which they came to UNL. Changing to a more recent year (during which they were full time) can be easily done. Make request through Chief Undergraduate Adviser to the Dean's Office.
