

Due: Monday, January 25, 2010

Name (Print) _____

CSE Login _____

Instructions Follow instructions *carefully*, failure to do so may result in points being deducted.

- The homework can be submitted on paper or via handin. Homework *neatly* formatted in L^AT_EX will receive a 10 point bonus. You will not receive the 10 points bonus if you work with a partner (see below).
- Clearly label each problem and submit the answers *in order*.
- Staple this cover page to the front of your assignment for easier grading.
- Late submissions *will not be accepted*.
- Show sufficient work to justify your answer(s).
- When you are asked to prove something, you must give as formal, rigorous, and complete a proof as possible. Each step in your proof must contain explanation that would allow us to understand what theorem/logic you have applied to arrive at that step.
- You are to work individually, and all work should be your own. Check partner policy below.
- The CSE academic dishonesty policy is in effect (see http://cse.unl.edu/ugrad/resources/academic_integrity.php).

Partner Policy You may work in pairs, but you must follow these guidelines:

1. You must work on *all* problems *together*. You may not simply partition the work between you.
2. You must use L^AT_EX and you may divide the typing duties however you wish.
3. You may not discuss problems with other groups or individuals.
4. Hand in only one hard copy under the first author's name.

Problem	Page	Points	Score
A	-	6	
1.1:10(b,d,f)	17	6	
1.1:12	17	8	
1.1:14	17	8	
1.1:20	18	16	
1.1:26	19	8	
Total		52	
Typesetting (bonus)		10	

Problem A Suppose that $\neg p \rightarrow \neg q$ is known to be false. Give the truth values for:

- (a) $p \wedge q$
- (b) $p \oplus q$
- (c) $q \rightarrow p$
