

CSCE 235 Introduction to Discrete Structures

CHECKLIST FOR SUBMITTING HOMEWORK

Please conform to the guidelines below when submitting your homework. Homework that does not obey those guidelines will be penalized.

- ☐ Always turn in a paper, hard copy of your homework, whether printed or handwritten. This requirement applies regardless of whether you are submitting your homework by webhandin or not.
- ☐ Staple the cover sheet on top of your submitted hardcopy. The cover sheet is the PDF document with the homework questions, available from the course's website. Your grade will be recorded on it.
- ☐ Write your name on the cover sheet.
- ☐ The submitted hard copy must be single sided: Whether you print or you write, please use only one side of the page. (CSE requires us to scan your homework, and the scanner scans only single-sided pages.)
- ☐ If you choose to use LaTeX, you must also turn in the TEX and PDF files using webhandin.

When in doubt, please send your question on [Piazza](#).

Best wishes,

Your committed GTA, UTA's, and instructor
