Formal Admission to Computer Engineering

Required prior to taking upper level engineering courses!

Typically done around the end of the sophomore year, constraints are Cumulative and Semester GPA at least 2.500, Grade of C+ or higher in MATH through 208, PHYS through 212, ELEC through 215/235, CSCE through 156, 230, and 235 (or RAIK 183, 184, 283). The process is automatic for qualifying students. Others will be notified concerning deficiencies.

Technical Electives Requirements - 15 hours

Technical electives may include Focus courses, 300- and 400-level CSCE, RAIK, and ELEC courses that are not already required.

Completing 9 hours or more in a Focus area with a grade of at least C results in receiving a Focus. By completing all 15 hours in one focus (including associated required course, if listed), the following conditions for Technical Electives are waived:

- I. 9 hours minimum of CSCE and/or cross-listed RAIK (384H, 376H, 378H, 301H, 302H, 401H, 402H).
- II. 9 hours minimum at 400-level.
- III. CSCE 390 and 490 Special Topics are NOT allowed (designated as not applying to major/minor).
- IV. 3 hours maximum of independent study (CSCE 399, 498, ELEC 399, 499).
- V. 6 hours maximum of internship/practicum (CSCE 491, RAIK 301H, 302H, 401H, 402H).
- VI. ELEC 494 and 495 Senior Design are NOT allowed (but may substitute for CSCE 488 and 489).

ACE Student Learning Outcomes - 12 hours

Maximum of 9 hrs in any one department for ACE 4-10. Asterisk (*) indicates those not built in the major. Complete listing at http://www.unl.edu/ous/ace/certifiedcourses.shtml
