Base Questions item 20

34. What are 1 or 2 specific things that helped you learn in this class?

- Performing assignments assisted my learning in this course.

- The mini-hws were a great way to practice and matched the "learn then immediately do" pattern that helps me retain information. Slides were a good blend of theory and details, and it was good to be able to read the book for a slightly different explanation in case one didn't quite click.

- Slides are helpful.

- Good project and homework topics, very detailed and thought out. Lectures motivated me to self study.

- Professor's Lectures Text Book

Base Questions item 21

35. What are 1 or 2 specific things that caused a problem with your learning in this class?

- The discomfort of the seats distracted from my learning.

- Dependencies of past coding.

- NA

- N/A

Base Questions item 22

36. Please provide 1 or 2 practical suggestions on ways to help improve student learning in this course.

- More comfortable sitting equipment.

- Modules that handle programming portions not being evaluated. IE modules that read data in and returns data structure. Keeps time consumption of developing such pieces to a minimum and allowing more time to program the algorithm under question.

- NA

- See more examples during any chapter

Base Questions item 23

37. Other comments that you would like to make:

- Great course!

- The Professor way of teaching is great. He is well prepared for all kinds of questions, he professionally took care of all concerns that I had during the early days of this course. His method of giving description of what he wants exactly is great.
